### Community Health Improvement Plan

Community Health Improvement Plan .....	21
Health Priorities .....	22-25
For More Information .....	26

Monroe Clinic and Green County Public Health, are co-chairs of the Green County Healthy Community Coalition. Together with over 50 organizations we have completed a Community Health Needs Assessment (CHNA) and Community Health Improvement Plan (CHIP) as required by state and federal law. The Patient Protection and Affordable Care Act and IRS section 501(r) (3) direct tax exempt hospitals to conduct a Community Health Needs Assessment and develop an Improvement Plan every three years. Local health departments are required by Wisconsin Statutes Ch. 251.05 to conduct a community health needs assessment and develop a community health improvement plan.

Green County health needs were prioritized by the Green County Healthy Community Coalition using the nominal voting method. A facilitated conversation regarding the number of health priorities the Coalition could effectively undertake was conducted. The Coalition came to a consensus to continue working on these four health priorities:

- Food Security & Breastfeeding
- Mental Health
- Physical Activity
- Substance Misuse

The Green County Healthy Community Coalition has committed to address the health priority needs through allocation of resources, as outlined in our Community Health Improvement Plan (CHIP).

## Substance Misuse

### Vision Statement

Green County residents will achieve a reduced level of substance use and/or abuse.

### Goals

Goal 1: Reduce opioid overdoses from an average of 22 per year to 16 per year by 2021.

Goal 2: Reduce excessive drinking of adults from 25% to 22% by 2021.

Goal 3: Reduce Green County High School students electronic cigarette use from 25% to 20% by 2021.

## Mental Health

### Vision Statement

Green County residents will experience greater access to mental health services with an expansion of behavioral health prevention, intervention and support services.

### Goals

- Goal 1: Establish a Mental Health Navigator position by 2020.
- Goal 2: Monroe Clinic will implement and pilot behavioral health services program in the Monroe and New Glarus school districts by 2021.
- Goal 3: Develop two new programs within Green County that will decrease the need for individuals who are experiencing severe dementia-related symptoms to be moved out of the local area by 2021.

## Physical Activity

### Vision Statement

Green County residents will increase their physical activity to achieve and maintain overall well-being for themselves, community and family.

### Goals

Goal 1: Continue to host a Wellness Week and increase participation by 5% annually through 2021.

Goal 2: Create a quarterly health and wellness newsletter or calendar for Green County businesses and community by 2020.

Goal 3: Provide education to local schools and the community on “Rethink Your Drink” campaign by the end of 2019.

## Food Security & Breastfeeding

### Vision Statement

Green County residents will have improved nutrition, breastfeeding support and food security throughout all stages of life.

### Goals

- Goal 1: Green County residents will have improved access to locally-grown food. As evidenced by an increase of usage of WIC (Women, Infant, Children nutritional program) Farmers Market vouchers by 3%, from 39% to 42% and a 10% increase in SNAP EBT usage at farmer's markets, by 2021.
- Goal 2: Residents will have increased opportunities to receive nutrition education as evidenced by two new community nutrition-based classes being offered by 2021.
- Goal 3: Infants will have improved nutrition through sustained, supported breastfeeding as evidenced by an increase in the percentage of WIC infants from 41% to 45% that receive any amount of breastmilk at six months of age, by 2021.
- Goal 4: Breastfeeding women in Green County will have improved availability and access to skilled lactation services as evidenced by an increase in the number of trained Certified Lactation Counselors (CLC) serving Green County from six to eight CLC's, by 2021.
